

# WHERE DOES MY CHEESEBURGER COME FROM?

Name: \_\_\_\_\_

Date: \_\_\_\_\_

**DO YOU KNOW WHERE THE THINGS YOU EAT, WEAR AND BUILD WITH START OUT?**

Farms, fields, and forests produce our agricultural products. Most of these products must be processed in some way before we can use them. Processing changes raw agricultural products into thousands of things we use every day. Think about a cheeseburger, for example. The parts of a cheeseburger come from many different raw agricultural products. **From the words in the word bank, choose the name of the agricultural product that is the source of each part of the cheeseburger. Write it in the column on the left. In the column on the right, list another food that is made from the same raw product.**
