

Name: _____

Milking Math

A dairy farmer is a farmer who specializes in raising dairy cattle, specifically for milk and/or cheese products.

It takes 10 minutes to milk one group of 20 cows. Answer the following questions and show your work.

Example:

How many minutes will it take to milk 60 cows? 30

How many hours? 1/2 an hour

Work: $60/20 = 3$

$$3 * 10 = 30 \text{ minutes}$$
